

Upgrade Your Working Abilities With **Loopa**

Meet **Loopa**, a Brand New Magnifying Workstation

Loopa is a newly developed ergonomic workstation based on a HD camera and monitor. Loopa is designed to replace the traditional magnifying lamps that exist on almost every work table. It provides a clear, sharp HD quality image allowing an easy, stressfree working enviroment.

The camera is mounted 40cm above the work area, leaving free space to work without interference from the camera body.

The HD monitor is located near the work area producing intuitive, efficient, easy adoption. It also reduces eye strain and neck fatigue associated with frequent use of traditional products.

A unique three way foot pedal allows zoom in/out and mode selection, facillitating a completely hands free operation.

Additional Features

- High quality HD camera & monitor creating a clear image
- Measuring capabilities (line, circle, square and triangle)
- 4 USB ports allow connection to external illumination, stick memory, laser pointer, UV illumination (for conformal coating inspection), bar code reader etc...
- Ethernet port allows connecting Loopa to the company network
- Convert picture opacity allowing comparison of overlay image
- Auto calibration
- Moderate price
- Modern colorful appearance

Accessories

Back panel communications ports

Side panel USB ports

Loopa mouse

3 way foot pedal

LED illumination bar

Laser pointer

Technical Specifications

Image resolution	Full HD – 1920x1080p	Display	10.1" Full HD
Zoom range	Optical x30 , Digital x12	Measurement types	Distance, circle, rectangle, tringle
LED illumination	Software Adjustable	Ports	4xUSB, RJ45 Ethernet port, HDMI
Focus	Auto/Manual	Network	View images from the device over the local network
Control	Wireless optical mouse / foot pedal	Power	100-240V, 50/60Hz , Approx. 22W (up to 60W with accessories)
View area	470mm [zoomx1.0] 20mm [zoomx30]	Weight	8.5Kg
Object Height Range	440mm - 320mm from camera lens	Size on desk	293x180x550mm (Cam height 445mm)
